

The Jake Group provides quality website and email hosting solutions for clients of every size. Our trusted service includes fast and reliable servers backed by our professional support team, cutting-edge technology and a state-of-the-art infrastructure to ensure every system is always up, running and secure.

#### HOSTING BENEFITS INCLUDE:

- Web hosting bandwidth and disk space to suit every need;
- Both Windows and Unix hosting environments, supporting a range of programming systems including PHP, ASP, ASP.NET, and ColdFusion;
- Built-in website usage statistics tracking;
- Scalable email systems including web-based, POP and Microsoft Exchange;
- Free add-on modules such as WordPress blog, photo galleries, message board, and more;
- 99.9% guaranteed server uptime; and
- Phone/email support and 24-hour monitoring by Jake's technical team.

In addition to web hosting service plans, Jake offers related services such as domain registration and transfer, DNS hosting, SSL certificates, online shopping carts, and database integration.

While our established plans meet the majority of our clients' needs, we also offer the freedom to fully tailor a plan based on custom specifications.

#### STANDARD PLAN

Jake's Standard Hosting Plan includes everything required for a small business website. Our Standard Plan is ideal for companies looking to establish an online presence with a straightforward, marketing-focused website. Fully-scalable for future growth, the Standard Plan comes equipped with a wide range of features, including an optional WordPress blog and Urchin site analytics.

##### Standard Plan Features:

- Up to 3TB of disk space and 50 e-mail user accounts
- Unlimited bandwidth
- Web-based control panel to operate your account

#### PREMIUM PLAN

Jake's Premium Hosting Plan is the perfect solution for businesses with dynamic, database driven websites that include interactive features. This plan includes expanded disk space, bandwidth and email capabilities, as well as MySQL database support. In addition, the Premium Plan supports online businesses with full technical support, by phone or email.

##### Premium Plan Features:

- MySQL or SQL Server database support
- Scalable structure to grow with website activity
- Robust email support

#### HIGH VOLUME PLAN

Jake's High Volume Hosting Plan is engineered for high-traffic e-commerce, social networking and media-intensive websites. With a 99.9% guaranteed uptime, this plan includes expanded disk space, bandwidth and email capabilities, for businesses operating in a secure online environment.

##### High Volume Plan Features:

- Robust support for data-intensive applications
- Built-in e-commerce capabilities, including ShopSite shopping cart and SSL
- Server root access provides support for a range of applications
